

# Near Peer Ultrasound Education

Cassidy Weeks OMS-II, Louisa  
Weindruch OMS-II, & John Gibson MD

# Introduction

---

Current education

---

Purpose of the study

---

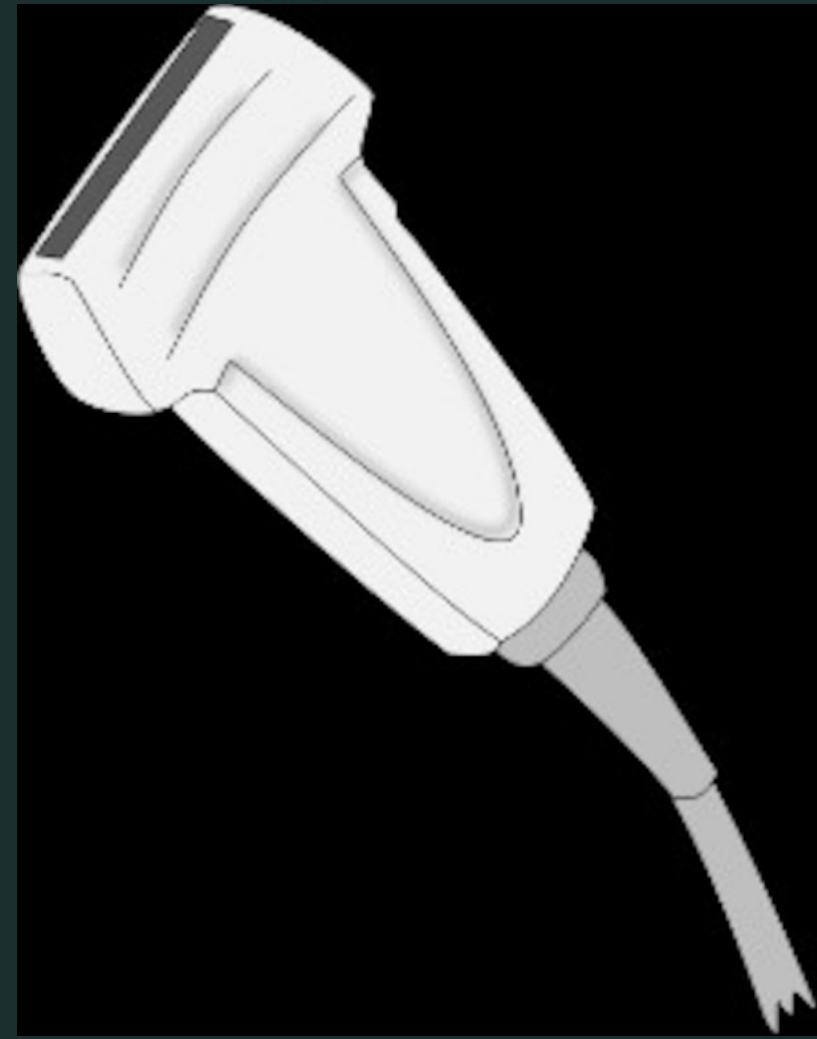

Defining Near Peer teaching

---

Hypothesis

---

POCUS

# Methods

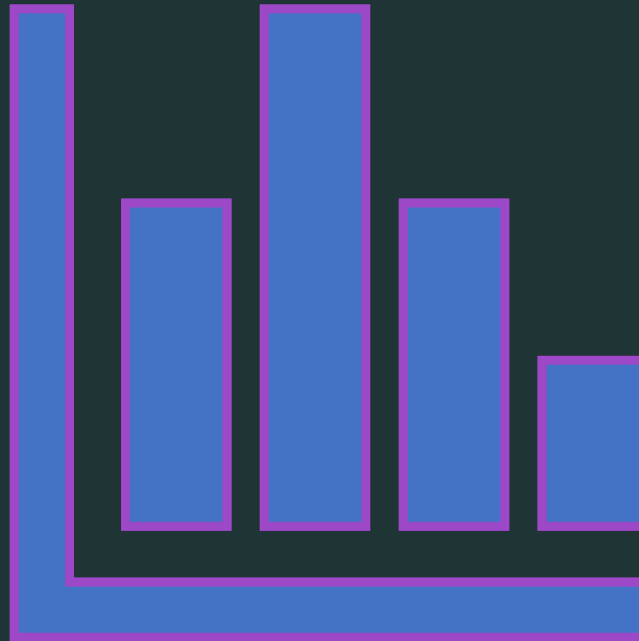

STUDENT SURVEY

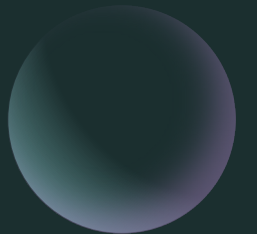

TEACHING  
ASSISTANT SURVEY

# Results

# General Student Population Survey Results

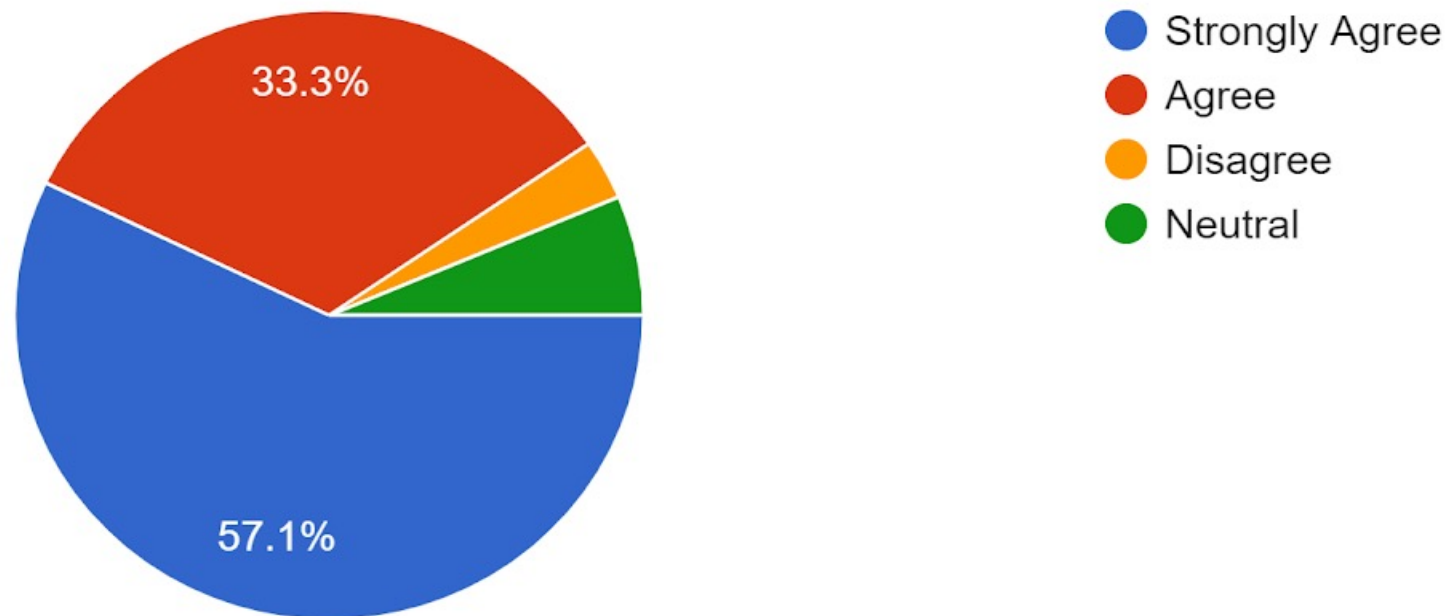

# General Student Population Survey Results

n=63

Ultrasound training is an integral part of medical education

63 responses

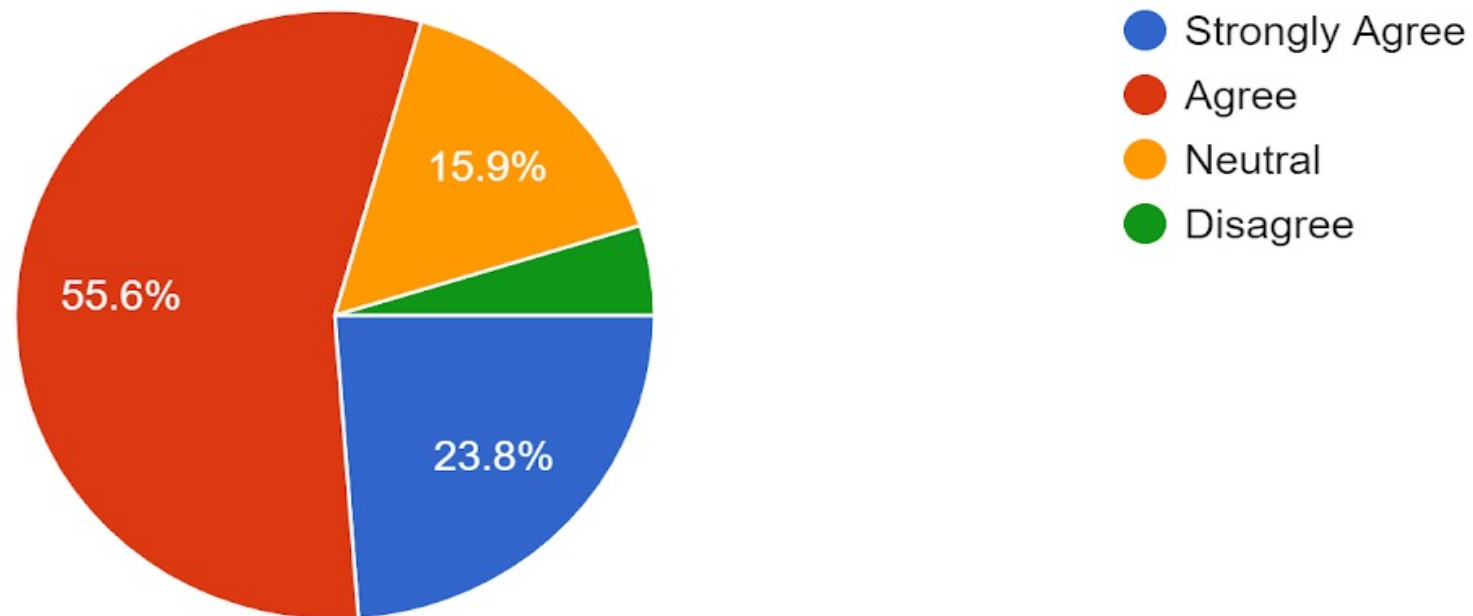

# General Student Population Survey Results

n=63

Ultrasound training has improved my understanding for system based courses

63 responses

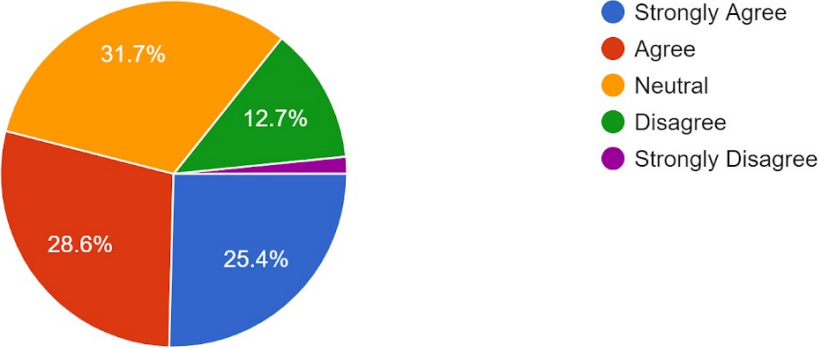

# General Student Population Survey Results

n=63

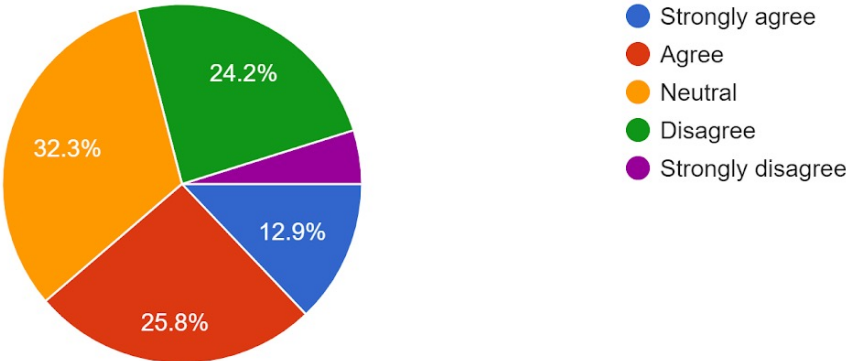

I prefer near peer teaching techniques over other teaching techniques

63 responses

I would prefer faculty solely taught ultrasound skills

62 responses

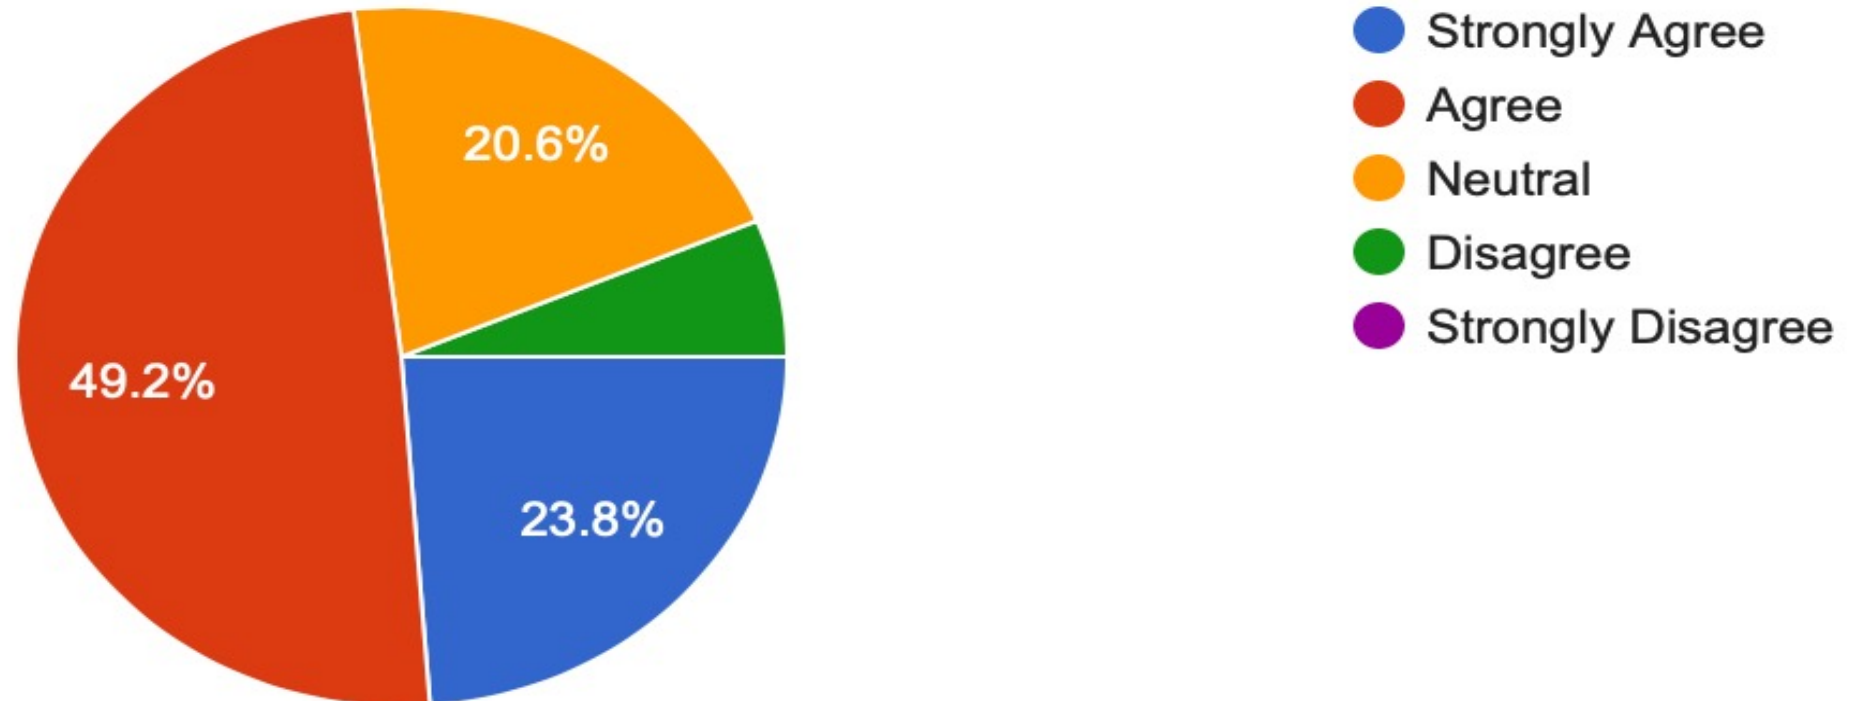

# General Student Population Survey Results

n=63

I feel my ultrasound skills have improved with near peer ultrasound training

63 responses

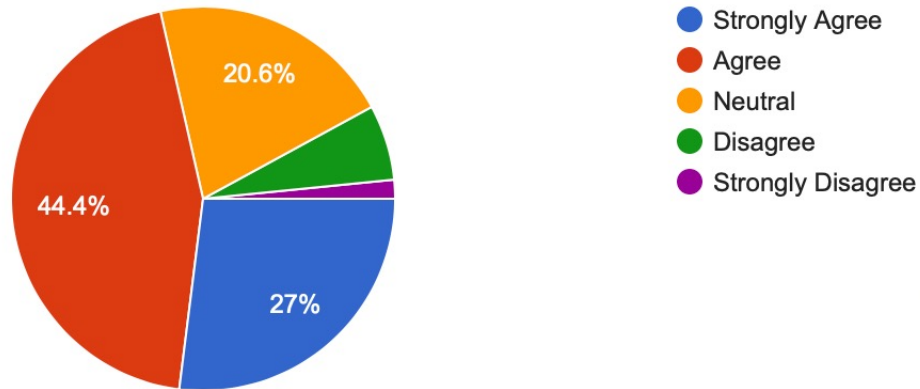

# General Student Population Survey Results

n=63

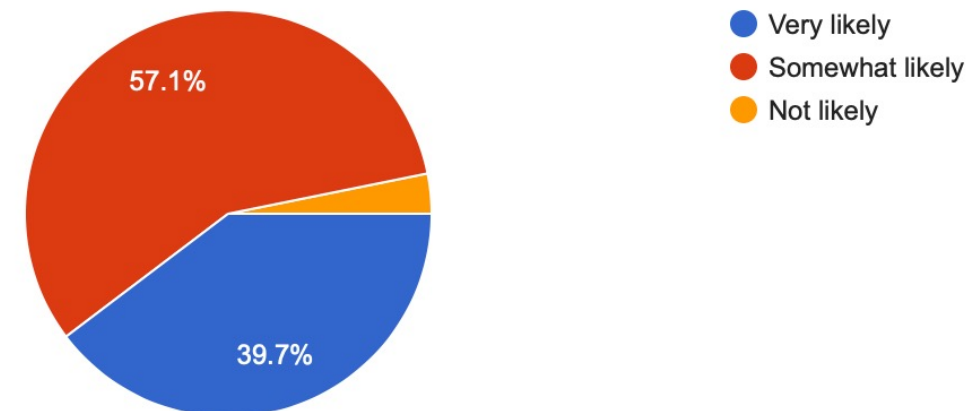

Near peer ultrasound training has made me want to pursue more ultrasound training

63 responses

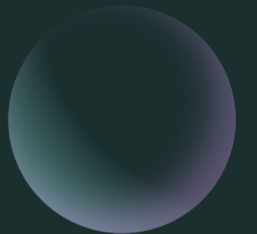

How likely are you to use POC ultrasound in your future

63 responses

# Ultrasound Teaching Assistant Survey Results

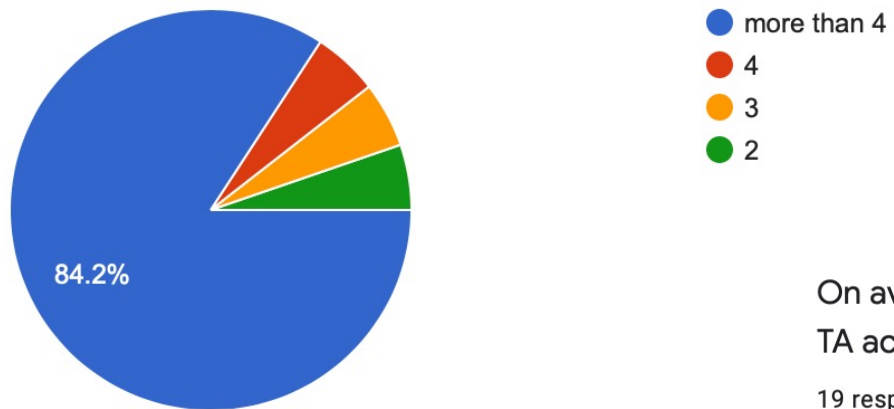

# Ultrasound Teaching Assistant Survey Results

n=19

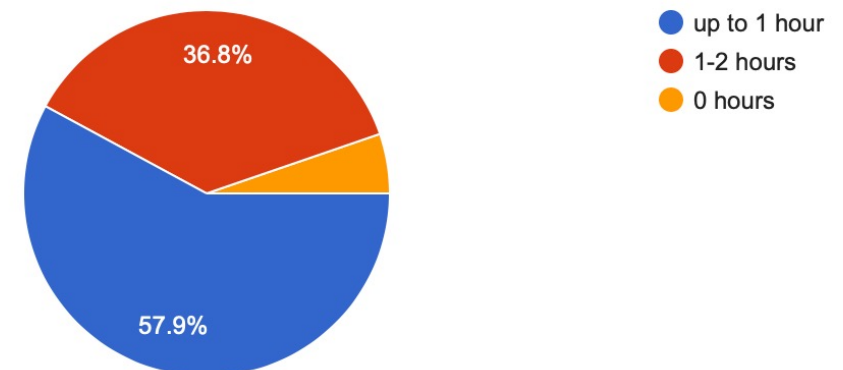

How many practice sessions have you attended

19 responses

On average, how much additional time weekly do you spend practicing ultrasound outside of TA activities

19 responses

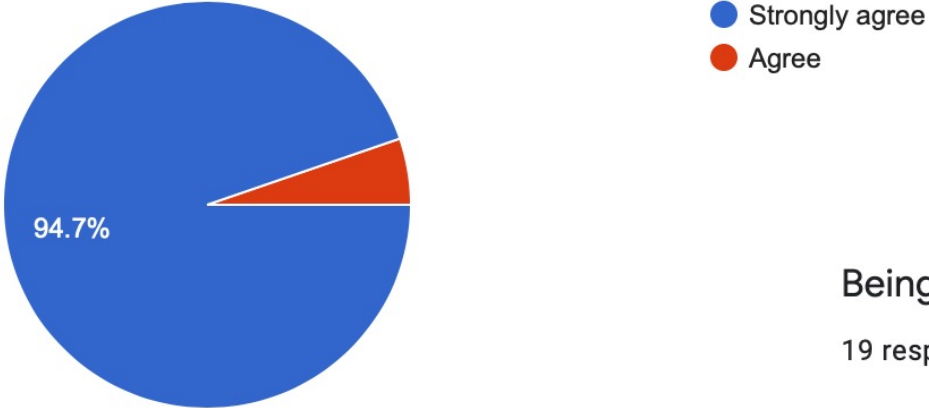

# Ultrasound Teaching Assistant Survey Results

n=19

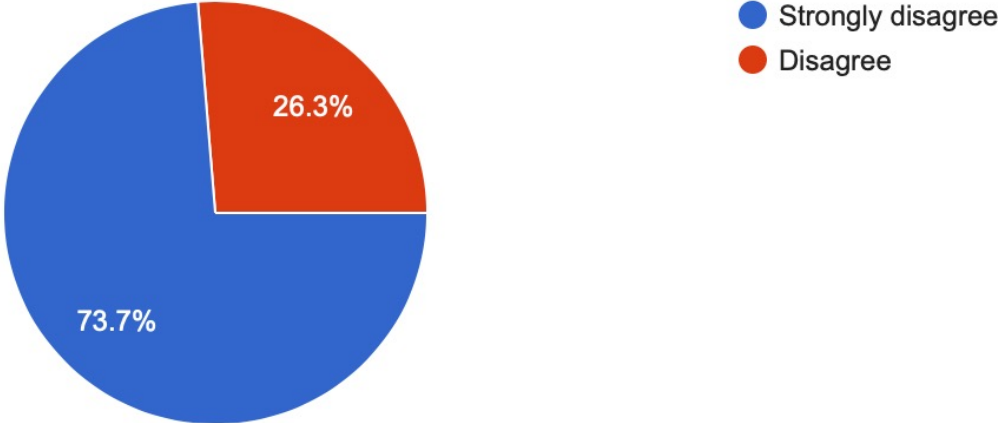

Being an ultrasound TA has helped with my medical education

19 responses

Being an ultrasound TA has hindered my medical education

19 responses

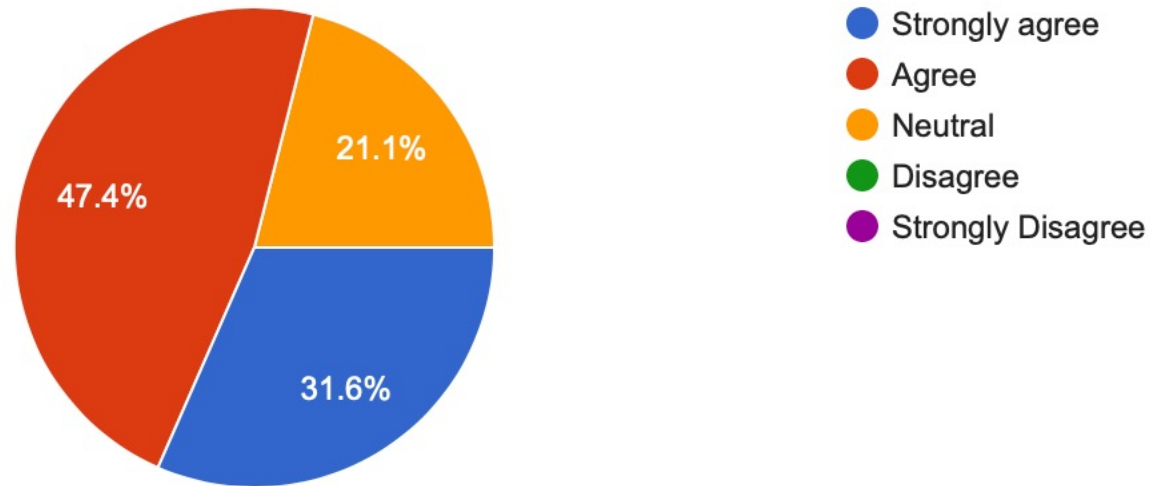

# Ultrasound Teaching Assistant Survey Results

n=19

I prefer near peer teaching techniques over other techniques

19 responses

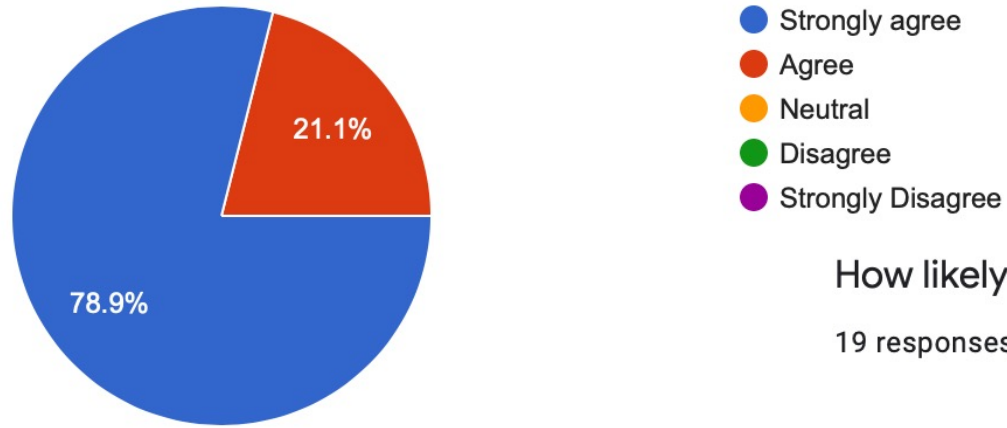

# Ultrasound Teaching Assistant Survey Results

n=19

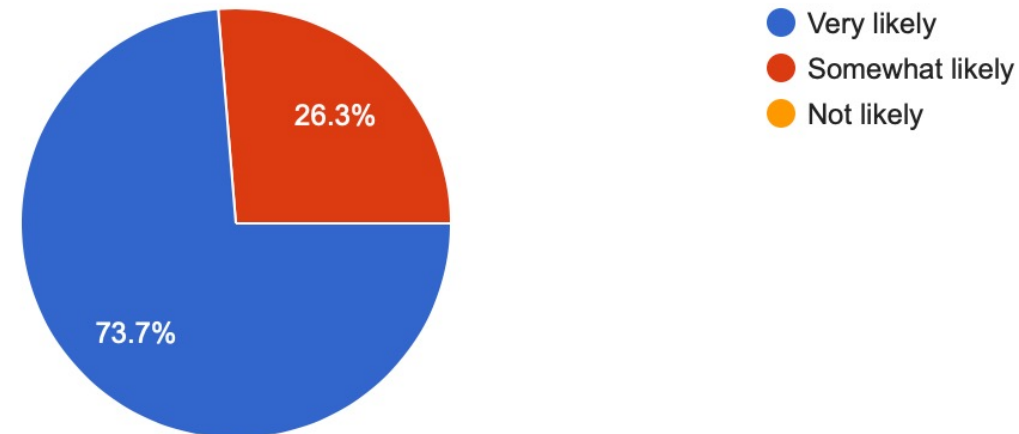

Being an ultrasound TA has helped to develop my teaching skills overall

19 responses

How likely are you to use POC ultrasound in your future practice

19 responses
