Objectives

By the end of this session, attendees will:

1. Articulate the challenge of faculty development in rural residency settings
2. Describe several ways RRPD programs have met their faculty development needs
3. Apply ideas for faculty development generated in the discussion to their own programs

Discussion questions

- Where have you found your faculty so far?
- Do you have regional groups you can connect with? Or other partners (universities, etc.)?
- Have you found ways to bring in students?
- Have you found other great resources for recruitment or development of faculty?
- Who are your local allies who might help with this (help teaching, providing opportunities for unique rotations, etc.)?
- How do people learn about teaching if they are far away from residency training?
